Fall Fling to be held at Wise, Va., Oct. 8, 9

By ROSE BALLARD

Hello again everyone. Are you enjoying the last days of summer, as fall officially here. I know we can't hold back time. As much as I love the beautiful autumn color that is God's coloring book. I read the long, cold winter months from November to May.

This may seem like a continuation from last week's column as my arms were aching so bad as I tried to type with a cushion to support my left shoulder. I mentioned that my niece Sue Hall Collier and I went on an adventure to the flea market. I think it is close to Wise, Va. I can find this event by myself, without getting lost.

I checked for information about the Fall Fling, which is held at Wise, Va. Oct. 8 and 9. I went last year. Sunrise Ridge bluegrass band was performing there.

Southern Ohio

I even paid \$50 for a DVD. The woman didn't give me a receipt. I paid cash, and when she sent me the DVD it was defective, so I hope she enjoyed the money I donated.

Sunrise Ridge will be performing again at Fall Fling at 4:30 p.m. You never know who will be in the audience.

Carcassonne Community Center Square dance is scheduled for October 8. Will Bowling is the caller, music by Sunrise Ridge. Doors open at 5 p.m., delicious food available. Come hungry, just think no dishes to wash.

Campbells Branch Community Center has its usual Friday night music.

I know I am selfish; I try to plan my trips to the mountains I call home around Campbells Branch and Carcassonne Community Center.

It is always a plus to see Sunrise Ridge band perform when I am in the mountains or anywhere.

I am still having so much mental anguish concerning the flood. I can't understand where all the millions of dollars are going. Oh, what a stupid statement. Sure I do, someone's pocket when families are still sleeping in tents. No wonder my blood pressure is uncontrollable.

Seeing the tragedy on television of the high waters of the flood so horrible, then going home and seeing just a tad bit has been so horrific. I can't get Berna Matthews's beautiful home out of my mind.

It is still hard to believe I won't be going to Golden Mountain Settlement. Enoch Adams is gone. My heart aches for Carol and Enoch's family and friends.

Sorry this column is filled with sadness, yet is filled with miracles also. I will try to get a more enjoyable column. Until next time. Rose Ballard, 9110 Lawrenceburg Rd., Harrison, OH 45030.

Thanks everyone for the prayers for Glenda Tolliver and her daughter Darneshia Mae Akemon.

Nish has a long way to go before she is released from the hospital. Again, thank God.

Speaking of prayers, for reasons I won't go into for several months I've not been involved too much with my used-to-be sidekick, grandson Bennie Wiederhold.

I found out that Bennie has to go see a cardiologist, as he is having problems. People, life is too short for aggravations. Please understand that person as you don't know what the next minute will bring.

Did I say my blood pressure is up? Well, it is that time of year. My son Keith Ballard dug my irises up again, except this time he was almost looking for a home. He dug every single iris up, thinned them out, then replanted most. It will take a year or two for them to bloom.

Until I found out that he had planted them back, I was about ready to dig up every plant in the yard.

Daphne Kater was correct when she said if I had the determination, I would dig a hole big enough to bury a piano in.

Now it might have taken me a year to do it, as I have a huge skin tear on my right hand and right leg.

Hey, you readers of this column, please contribute a few dollars and invest in such small things as extension cords and detergents for the flood victims. You can drop them at Brandon's garage at Isom or Jeremiah, which I am not for sure.

Please, if possible, give to a reliable person, don't send to Red Cross or organizations.

Hello Buddy, Bernice, Chuck and Mike Grubb, Bernice, I hope you and Buddy are feeling better.

Hello, Mike and Marcia Caudill, I am looking forward to seeing you soon, at least I hope so.

Johnny and Ann Calihan are still holding on. Again, Ann is so amazing.

Hello Tommy Tindell, maybe I will be showing up to see you before long.

U.S. DEPARTMENT OF JUSTICE, FEDERAL BUREAU OF PRISONS Notice of Intent to Prepare a Draft Environmental Impact Statement for the Proposed Federal Correctional Institution and Federal Prison Camp in Letcher County, KY

Pursuant to the National Environmental Policy Act (NEPA) of 1969, as implemented by Council on Environmental Quality and Federal Bureau of Prisons (Bureau) regulations, the Bureau announces its intent to prepare a Draft Environmental Impact Statement (DEIS) for the proposed development of a new Federal Correctional Institution (FCI) and Federal Prison Camp (FPC) in Letcher County, Kentucky.

The Bureau's mission is to protect society by confining offenders in the controlled environments of prisons and community-based facilities that are safe, humane, cost-efficient, appropriately secure, and provide work and other self-improvement opportunities to assist offenders in becoming law-abiding citizens. A growing challenge to successfully performing that mission is the increasing number of federal correctional facilities and supporting infrastructure that were constructed over 50 years ago (the approximate design life of such facilities), resulting in a continuous need to maintain existing facilities, and when necessary, develop new facilities and infrastructure. To address this need, the Bureau proposes to construct and operate a new medium-security FCI and an adjoining minimum-security FPC in Letcher County, KY. The FCI and FPC would be designed to house approximately 1,152 adult males and 256 adult males, respectively, and serve the needs of the Bureau's Mid-Atlantic Region.

Development and operation of a new FCI and FPC is considered to be an action with the potential to significantly affect the quality of the human environment. The DEIS is being prepared to ensure that the potential environmental impacts associated with the proposed action are thoroughly documented and that compliance with NEPA, the Bureau's NEPA implementing regulations, and other environmental statutes, regulations and Executive Orders is achieved. Preparation of environmental documentation, and its consideration by federal, state, and local officials, regulatory agencies, stakeholders, and the public, is being carried out to ensure that the Bureau fully considers the potential environmental impacts associated with the proposed action.

Publication of the DEIS will initiate a public comment period which will last no less than 45 days, during which time the Bureau will host a public meeting. Following the end of the DEIS public comment period, the Bureau will prepare and publish a Final EIS (FEIS) in accordance with NEPA which will incorporate additional data which may come to light into the decision-making process and respond to comments received on the DEIS. The FEIS will be subject to a public review period of not less than 30 days.

No action will be taken to implement any of the proposed alternatives until completion of the FEIS 30-day review period. A decision on whether to proceed with the proposed action would be made thereafter by the Director of the Bureau and taking into account all environmental analyses and public comments and documented by a Record of Decision as stipulated by NEPA regulations.

Publication of this notice initiates a 30-day scoping period. For additional information, or to receive future notifications regarding the proposed project, contact: Kimberly S. Hudson, Site Selection Specialist, Federal Bureau of Prisons, 320 First Street, NW, Room 901-5 West, Washington, DC 20534; email: kshudson@bop.gov or by visiting the project website at: https://www.proposed-fci-leetchercountyky.com. Thank you for your interest.
