

Prehearing briefs must conform with the provisions of § 207.23 of the Commission's rules; the deadline for filing is December 7, 2022. Parties shall also file written testimony in connection with their presentation at the hearing, and posthearing briefs, which must conform with the provisions of section 207.25 of the Commission's rules. The deadline for filing posthearing briefs is December 22, 2022. In addition, any person who has not entered an appearance as a party to the investigations may submit a written statement of information pertinent to the subject of the investigations, including statements of support or opposition to the petitions, on or before December 22, 2022. On January 13, 2023, the Commission will make available to parties all information on which they have not had an opportunity to comment. Parties may submit final comments on this information on or before January 18, 2023, but such final comments must not contain new factual information and must otherwise comply with § 207.30 of the Commission's rules. All written submissions must conform with the provisions of § 201.8 of the Commission's rules; any submissions that contain BPI must also conform with the requirements of §§ 201.6, 207.3, and 207.7 of the Commission's rules. The Commission's *Handbook on Filing Procedures*, available on the Commission's website at https://www.usitc.gov/documents/handbook_on_filing_procedures.pdf, elaborates upon the Commission's procedures with respect to filings.

Additional written submissions to the Commission, including requests pursuant to § 201.12 of the Commission's rules, shall not be accepted unless good cause is shown for accepting such submissions, or unless the submission is pursuant to a specific request by a Commissioner or Commission staff.

In accordance with §§ 201.16(c) and 207.3 of the Commission's rules, each document filed by a party to the investigations must be served on all other parties to the investigations (as identified by either the public or BPI service list), and a certificate of service must be timely filed. The Secretary will not accept a document for filing without a certificate of service.

For further information concerning this proceeding see the Commission's notice cited above and the Commission's Rules of Practice and Procedure, part 201, subparts A through

E (19 CFR part 201), and part 207, subparts A and C (19 CFR part 207).

Authority: These investigations are being conducted under authority of title VII of the Tariff Act of 1930; this notice is published pursuant to § 207.21 of the Commission's rules.

By order of the Commission.

Issued: September 22, 2022.

Katherine Hiner,

Acting Secretary to the Commission.

BILLING CODE 7020-02-P

DEPARTMENT OF JUSTICE

Federal Bureau of Prisons

Notice of Intent To Prepare a Draft Environmental Impact Statement for the Proposed Federal Correctional Institution and Federal Prison Camp in Letcher County, Kentucky

AGENCY: Federal Bureau of Prisons, U.S. Department of Justice.

ACTION: Notice of intent to prepare a Draft Environmental Impact Statement for the Proposed Federal Correctional Institution and Federal Prison Camp in Letcher County, Kentucky.

SUMMARY: Pursuant to the National Environmental Policy Act (NEPA) of 1969, as implemented by the Council on Environmental Quality and Federal Bureau of Prisons (Bureau) regulations, the Bureau announces its intent to prepare a Draft Environmental Impact Statement (DEIS) for the "Proposed Federal Correctional Institution and Federal Prison Camp Letcher County, Kentucky."

SUPPLEMENTARY INFORMATION:

Background

The Bureau's mission is to protect society by confining offenders in the controlled environments of prisons and community-based facilities that are safe, humane, cost-efficient, appropriately secure, and provide work and other self-improvement opportunities to assist offenders in becoming law-abiding citizens. A growing challenge to successfully performing that mission is the increasing number of federal correctional facilities and supporting infrastructure that were constructed over 50 years ago (the approximate design life of such facilities), resulting in a continuous need to maintain existing facilities, and when necessary,

develop new facilities and infrastructure.

To address the need for modern, efficient, and cost-effective institutions, the Bureau is proposing to construct and operate a new medium-security Federal Correctional Institution (FCI) and an adjoining minimum-security Federal Prison Camp (FPC) in Letcher County, Kentucky. The FCI and FPC would be designed to house approximately 1,152 adult males and 256 adult males, respectively, and serve the needs of the Bureau's Mid-Atlantic Region.

Compliance With the National Environmental Policy Act

Development and operation of a new FCI and FPC is considered to be an action potentially significantly affecting the quality of the human environment. Therefore, the Bureau must comply with NEPA to ensure that the environmental consequences of such a federal action are adequately considered. This DEIS will be prepared to ensure that the potential environmental impacts associated with the proposed action are thoroughly documented and that compliance is achieved with NEPA as well as with other environmental statutes including but not limited to: the Coastal Zone Management Act of 1972; the Clean Air Act of 1974; the Clean Water Act and Amendments, the Endangered Species Act of 1973 (ESA); the National Historic Preservation Act (NHPA) of 1966; and the Farmland Protection Policy Act (FPPA), among other laws, regulations and Executive Orders.

Preparation of environmental documentation and its consideration by federal, state, and local officials, regulatory agencies, stakeholders, and the public will be carried out to demonstrate that the Bureau understands and fully considers the potential environmental impacts associated with the proposed action. This includes consideration to the potential impacts associated with correctional institution construction and operation and attainment of the project's objectives.

In 2006, Congress authorized and directed the Bureau to initiate various investigations for development of a new federal correctional facility in Letcher County. In accordance with Congress' directive, the Bureau conducted a wide range of technical investigations and studies and published multiple EISs in conformance with NEPA as summarized below.

Date	Title	Description
2006	Congressional authorization.	Bureau directed to undertake planning for a new high-security United States Penitentiary (USP) in Letcher County, Kentucky.
July 2013	Notice of Intent to Prepare a Draft Environmental Impact Statement.	Published notice of the Bureau's intent to prepare a DEIS for development of a USP and FPC on properties located in Letcher County, Kentucky. The proposed sites subjected to study consisted of non-Bureau properties located near the City of Whitesburg.
August 2013	Public Scoping Meeting Held.	Held a public scoping meeting to inform the public about the proposed project and to explain NEPA and the associated environmental impact analysis.
February 2015	Draft Environmental Impact Statement.	Evaluated potential impacts to the natural and man-made environments resulting from development and operation of a proposed USP and FPC at two alternative sites in Letcher County: Alternative 1—Payne Gap Site and Alternative 2—Roxana Site.
March 2015	DEIS Public Meeting Held.	Held a public meeting to seek public input and comments concerning the proposed project and DEIS analysis.
July 2015	Final Environmental Impact Statement.	Evaluated potential impacts to the natural and man-made environments resulting from development and operation of a proposed USP and FPC at two alternative sites in Letcher County: Alternative 1—Payne Gap Site and Alternative 2—Roxana Site. Identified the Roxana Site as the preferred alternative for development and operation of new facilities as best meeting the project goals and objectives and, on balance, would have fewer impacts to the environment. The FEIS included updated information contained in DEIS and responded to public comments received concerning the DEIS.
March 2016	Revised Final Environmental Impact Statement.	Superseded the FEIS published in July 2015, which was withdrawn after consideration of comments received following its publication and to address inconsistencies in the FEIS.
November 2016	Notice of Intent to Prepare a Supplemental Revised Final Environmental Impact Statement.	Provided notice of the Bureau's intent to prepare a Supplement to the Revised FEIS for the proposed USP and FPC in Letcher County. Preparation of the Supplement was necessary to address changes in the proposed action and new circumstances or information relevant to potential environmental impacts including a reduction in available land area of the Roxana Site necessitating changes to the facilities layout evaluated for Alternative 2—Roxana Site.
March 2017	Draft Supplemental Revised Final Environmental Impact Statement.	Draft Supplemental Revised FEIS incorporated by reference and expanded upon the analyses presented in the Revised FEIS. The Draft Supplement addressed new circumstances or information relevant to potential environmental impacts. Specifically, a reduction in available land area of the Roxana Site necessitated modifying the facilities layout evaluated for Alternative 2—Roxana Site in the Revised FEIS which identified Modified Alternative 2—Roxana Site as the preferred alternative.
September 2017	Final Supplemental Revised Final Environmental Impact Statement.	Evaluated potential impacts to the natural and man-made environments resulting from development and operation of a proposed USP and FPC at two alternative sites in Letcher County. Identified Modified Alternative 2—Roxana Site as the preferred alternative. Incorporated by reference and built upon the analyses presented in the Revised FEIS. Addressed changes in the proposed action and assessed new circumstances or information relevant to potential environmental impacts.
March 2018	Record of Decision	Director of the Federal Bureau of Prisons selected Modified Alternative 2—Roxana Site for land acquisition and development of a USP and FPC in Letcher County. The decision was made following consideration of potential environmental consequences, agency and public comments, Bureau operational, security, and management needs, and after being apprised of material in the DEIS, FEIS, Revised FEIS, and Draft and Final Supplemental Revised FEISs. Record of Decision (ROD) published to document the Bureau's decision with respect to the environmental review process.
July 2019	Withdrawal of Record of Decision.	Acting Director of the Federal Bureau of Prisons withdraws the ROD based on new information, which may be relevant to the environmental analysis for the proposed action, in order to evaluate the new information more fully.
September 2022	Notice of Intent to Prepare a Draft Environmental Impact Statement.	Notice of the Bureau's intent to prepare a DEIS for development of a medium-security FCI and FPC at alternative locations in Letcher County, Kentucky. The proposed sites to be examined consist of non-Bureau properties located near the City of Whitesburg.

While the Congressional directive to the Bureau to develop a new USP in Letcher County remains, the Bureau has been reevaluating the proposed project since the Record of Decision was withdrawn. During that time, the Bureau determined that the need to house medium-security inmates in a new FCI supersedes the need to house high-security inmates in a new USP. Design, construction, and operation of a high-security USP differs greatly from a medium-security FCI with the potential environmental impacts of its

development and operation correspondingly different.

Consistent with the guidance provided in 40 CFR 1502.9, the DEIS will address “*substantial changes in the proposed action that are relevant to environmental concerns or if there are significant new circumstances or information relevant to environmental concerns and bearing on the proposed action or its impacts.*” As a result of the change of scope in the proposed action (development of a medium-security FCI vs a high-security USP), planning for a

new FCI and FPC was initiated April 2022. The Bureau will soon undertake a new evaluation and analysis in accordance with NEPA and the Bureau's NEPA implementing regulations to be documented within a new DEIS.

Publication of the Notice of Intent to Prepare a DEIS for development of a new FCI and FPC in Letcher County, Kentucky initiates a scoping period lasting for 30 days from the date of publication of this Notice of Intent in the **Federal Register**. A similar notice inviting federal, state, county, and local

agencies, officials, organizations, and the public to participate in the scoping and DEIS study process will also be published in local newspapers.

The DEIS will analyze potential environmental impacts that may result from the proposed action including, but not limited to, land use and zoning; topography, geology, and soils; air quality; noise; cultural resources; water resources; and biological resources. The DEIS analysis will also evaluate direct, indirect, and cumulative impacts. Relevant and reasonable measures that could avoid or mitigate environmental impacts will also be analyzed. Additionally, the Bureau will undertake any consultations required by applicable laws or regulations.

The Bureau will issue the DEIS for a 45-day public comment period, during which time a public meeting will be held. A notice of availability of the DEIS and a notice of public meeting will be published in the **Federal Register** and in area newspapers in advance of the release of the DEIS and the public meeting. Those notices will identify further details about the public meeting, the means to view a copy of the DEIS, and the specific opportunities and methods for the public to provide comments on the proposed action and DEIS. Anyone wishing to receive notifications regarding the proposed project and DEIS are requested to contact the Bureau's Site Selection Specialist at the address shown below.

Following issuance of the DEIS and completion of the 45-day public comment period on the DEIS, the Bureau will issue a Final EIS (FEIS) that will include comments received during the public comment period on the DEIS. The FEIS will also include the Bureau's response to substantive comments received on the DEIS. Following publication of the FEIS, a 30-day review period will be provided. No action will be taken to implement any of the proposed alternatives until completion of the 30-day review period on the FEIS and issuance of a Record of Decision by the Director of the Bureau.

Contact

Questions concerning the proposed action and the DEIS may be directed to Kimberly S. Hudson, COR, Site Selection Specialist, Construction & Environmental Review Branch, U.S. Department of Justice, Federal Bureau of Prisons, 320 First Street NW, Room 901-5 West, Washington, DC 20534; email: kshudson@bop.gov or by visiting the project website at: <https://www.proposed-fci-letchercountyky.com>.

Dated: September 28, 2022.

Kimberly S. Hudson,

Site Selection Specialist, Construction & Environmental Review Branch.

BILLING CODE P

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[Notice: (22-075)]

Notice of Intent To Grant an Exclusive, Co-Exclusive or Partially Exclusive Patent License

AGENCY: National Aeronautics and Space Administration.

ACTION: Notice of intent to grant exclusive, co-exclusive or partially exclusive patent license.

SUMMARY: NASA hereby gives notice of its intent to grant an Exclusive, Co-Exclusive or Partially Exclusive Patent License to practice the inventions described and claimed in the patents and/or patent applications listed in **SUPPLEMENTARY INFORMATION** below.

DATES: The prospective Exclusive, Co-Exclusive or Partially Exclusive Patent License may be granted unless NASA receives written objections including evidence and argument, no later than October 13, 2022 that establish that the grant of the license would not be consistent with the requirements regarding the licensing of federally owned inventions as set forth in the Bayh-Dole Act and implementing regulations. Competing applications completed and received by NASA no later than October 13, 2022 will also be treated as objections to the grant of the contemplated Exclusive, Co-Exclusive or Partially Exclusive Patent License. Objections submitted in response to this notice will not be made available to the public for inspection and, to the extent permitted by law, will not be released under the Freedom of Information Act.

OBJECTIONS AND FURTHER INFORMATION: Written objections relating to the prospective license or requests for further information may be submitted to Agency Counsel for Intellectual Property, NASA Headquarters at Email: hq-patentoffice@mail.nasa.gov. Questions may be directed to Phone: (202) 358-3437.

SUPPLEMENTARY INFORMATION: NASA intends to grant an Exclusive, Co-Exclusive or Partially Exclusive Patent License in the United States to practice the inventions described and claimed in: U.S. Patent No. 6,953,129 titled "Pressure Vessel With Impact and Fire Resistant Coating and Method of Making

Same," U.S. Patent No. 8,561,829 titled "Composite Pressure Vessel Including Crack Arresting Barrier," U.S. Patent No. 8,297,468 titled "Fuel Tank for Liquefied Natural Gas," U.S. Patent No. 7,867,589 titled "Hybrid Cryogenic Tank Construction and Method of Manufacture Therefor," U.S. Patent No. 7,641,949 titled "Pressure Vessel With Improved Impact Resistance and Method of Making the Same," to Hanwha Cimarron, having its principal place of business in Huntsville, AL. The fields of use may be limited. NASA has not yet made a final determination to grant the requested license and may deny the requested license even if no objections are submitted within the comment period.

This notice of intent to grant an Exclusive, Co-Exclusive or Partially Exclusive Patent License is issued in accordance with 35 U.S.C. 209(e) and 37 CFR 404.7(a)(1)(i). The patent rights in these inventions have been assigned to the United States of America as represented by the Administrator of the National Aeronautics and Space Administration. The prospective license will comply with the requirements of 35 U.S.C. 209 and 37 CFR 404.7.

Information about other NASA inventions available for licensing can be found online at <http://technology.nasa.gov>.

Helen M. Galus,

Agency Counsel for Intellectual Property.
